Chartered Accountancy as a Profession

A challenging profession that offers practice in areas of accounting, taxation, auditing, corporate finance, business laws and corporate governance. In the advent of globalisation in Indian economy, our global industry are in great need of multi-faceted intellectual Chartered Accountants.

CA-CPT

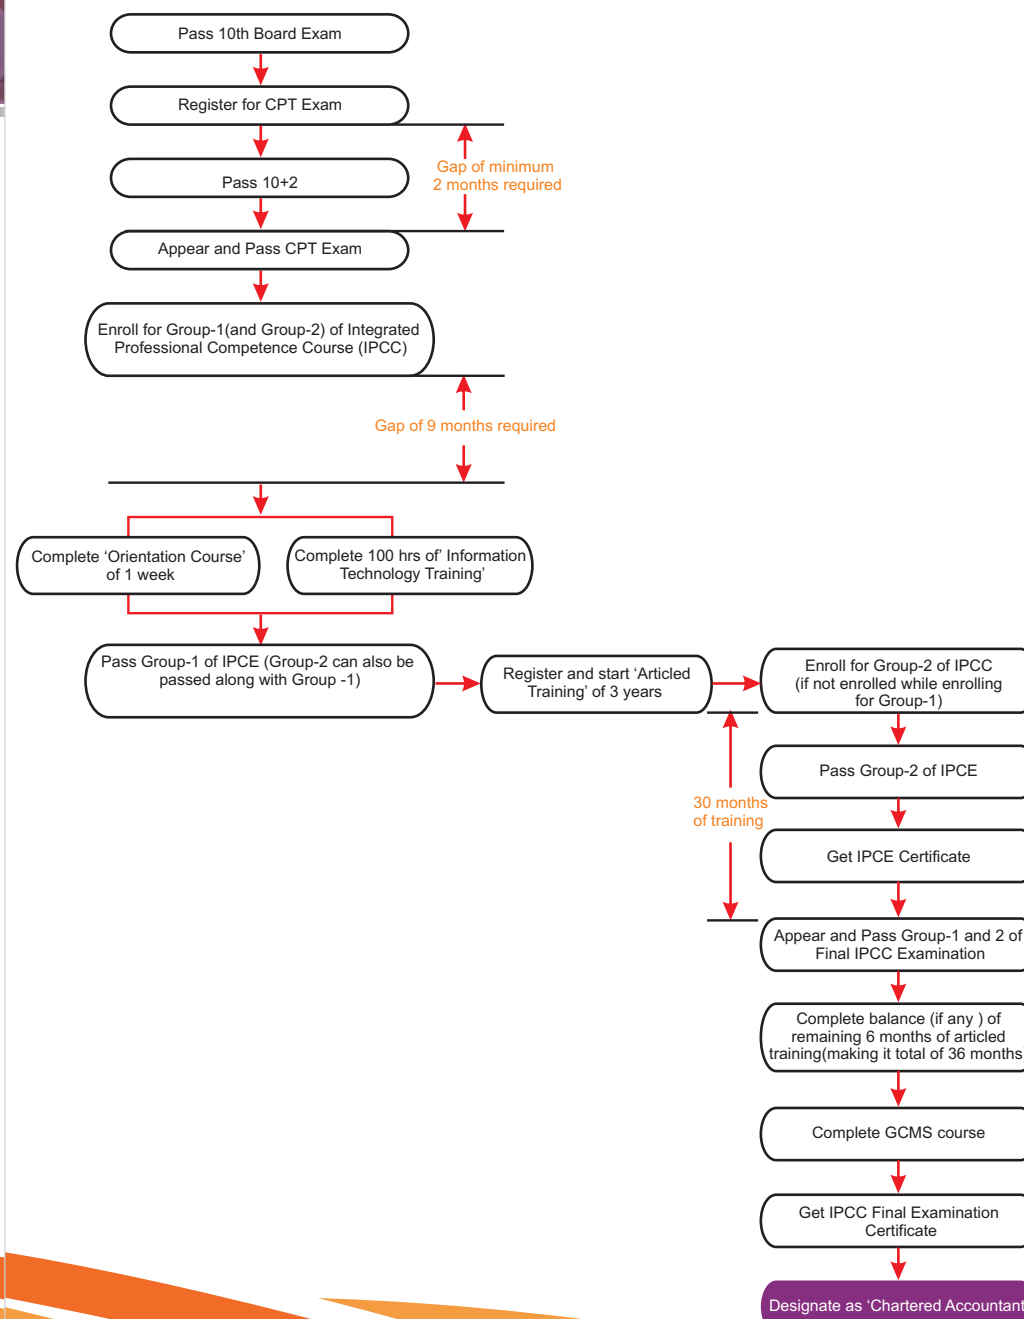

The Chartered Accountancy course is a widely-recognized professional course, calling for systematic effort and sincere study from the aspiring student. There are four stages of academic preparation and examinations in order to become a Chartered Accountant. These are – (i) Common Proficiency Test (CPT), (ii) Infotech Training (ITT) and Integrated Professional Competence Course (IPCC) Exams, (iii) Articleship Training, and (iv) Final Exams.

Common Proficiency Test is an entry level examination for admission to the Chartered Accountancy Course. Though a student is allowed to register for the CPT course after his/her 10th Standard, only those students who have appeared in their 10 + 2 examinations are eligible to appear at the CPT examinations. The course involves a blend of theoretical education and practical training which run concurrently for a period of three years and equips a student with knowledge, ability, skills and other qualities expected from a professional accountant.

CA-CPT test consists of 200 questions spread across 4 sections. Total duration is 4 hours. The test is subdivided into sections :

1. Fundamentals of Accounting (60 questions)
2. Mercantile Law (40 questions)
3. General Economics (50 questions)
4. Quantitative Aptitude (50 Questions)

The Road to become a CA

About Focus Edu Care

Focus Edu-Care is an educational initiative of the Focus Group of Companies. Our Goal is to offer world class education through enhanced effectiveness of our people and processes using scientifically proven methodologies and high quality academic programs, experienced faculty and meticulous administration.

Course offered

CA-CPT (100 hrs)

Our CA-CPT course has a thorough focus on each four areas of the CPT
